

COVID Risk Statement

To help protect our staff and clients, we are regularly reviewing our plans to deal with the impact of Coronavirus following the latest Government and Public Health England guidance. We will take steps to minimise the impact on our business, while also enabling us to continue to provide the best possible service to our clients.

Client and Employee Care

The health and wellbeing of our staff and clients remain our top priority. Everyone needs to play their part to slow the spread of the infection and to look after their health. We are ensuring that we take a sensible and pragmatic approach to contain any risk of spreading the infection. We will always take different approaches at different depots where appropriate.

Communication

We are providing regular updates and guidance to all of our staff, clients, suppliers and visitors to our offices to ensure they understand the risks and how to mitigate against them.

Continuity of Service

Many of the Hunt Forest Group can work remotely as a result of strong and reliable IT infrastructure. Therefore, we are well placed to provide a continuity of service and maintain our admin systems. We already operate across multiple sites and have changed offices in the first instance to segregate staff beyond 2m. Inevitably, there has been a reduction in the number of face-to-face meetings and travel, but we have a range of tools and technologies available to enable us to interact with our teams and clients remotely.

You can find the latest updates from the [gov.uk](https://www.gov.uk) website.
